Sabina, I don't see how we can have that be part of load. I'm unclear where it is written in your contract where you do 25% online as part of load, plus that hasn't been happening up until this request. If that is, indeed, somewhere part of your contract, I don't know why it hasn't come up until now.

As it is, we're short of face-to-face instructors. And my understanding also is that this graduate course is very unlikely to make the 27-student minimum required.

So I'm still at a loss here.
