

Journal of Cyber Security

A Proposal for a Cyber-Security/Homeland Security Program at UW-Platteville

1. Create cyber-security and criminal justice journals (open access) for UW-Platteville Faculty, Staff & Students as well as outside scholars to publish their peer-reviewed work and be recognized outside of UWP.
 - a. I now own the following sites: Journal of Criminal Justice at journalofcriminaljustice.org and journalofcriminaljustice.com; Journal of Cyber Security at journalofcybersecurity.org and journalofcybersecurity.com
 - b. These sites will become open access journals for peer-reviewed articles.
2. Create an undergraduate and graduate course for cyber-security.
3. Create an undergraduate and graduate course for homeland security (I have already developed a Special Topics in C.J. Domestic Terrorism course that could easily be turned into an elective course for C.J. offered at least once a year).
4. Form Workshops as a Community Outreach Program to educate law enforcement and private business in cyber-security.
5. Create more homeland security and cyber-security courses in the next years. Eg:
 - a. Foundations in Homeland Security
 - b. Homeland Security Preparedness and Response
 - c. Advanced Quantitative Methods for Decision Making Under Uncertainty
 - d. Managing Resources and Applications for Homeland Security
 - e. Basic and Advanced Cyber Forensics
 - f. Computer and Information Security
 - g. Information and Operational Security
6. Develop an emphasis in homeland & cyber security within Criminal Justice.
7. Turn emphasis into a major in homeland & cyber security in the next years.
8. Publish UW-Platteville Cyber Security & Justice.
