Re: *Sabina Burton v. Bd. of Regents*
Case No. 14-CV-274-jdp

Dear Judge Peterson:

I represent the defendant in the above case. On March 29, 2016, the court reported it received an email from Plaintiff Sabina Burton that included a draft request for reconsideration of this court's March 18, 2016 summary judgment decision.

The defendant appreciates that the court did not review Dr. Burton's substantive request, and is satisfied that the matter was essentially treated as a rejected filing. In the future, should the court receive any other such ex-parte communications from Dr. Burton, the defendant respectfully requests that the communication be filed on the ECF case docket or copied directly to the defendant's attorneys.

Thank you.

Sincerely,

s/Anne Bensky
