Mike,

I am deeply disturbed by the decision to give the professional achievement award to Rex Reed this October. This is just another retaliation against me. The award is void as it is in violation of the nomination procedure as outlined at <http://www.uwplatt.edu/lae/FacultyStaffAwards.html>

There it states as followed:

Professional Development Award

The Professional Development Award is given in recognition of excellence in professional development activity such as research, writing, activity in professional organizations, performance, or artistic production. One tenured or tenure-track faculty or academic staff member is eligible to be nominated by each DRB/SRB per academic year. The DRB/SRB chair needs to put forth the nominee's name in a cover letter that identifies this award, identifies the professional activities for the specific year of nomination, and generally highlights the nominee's career activities. A copy of a current CV or resume should also be included in the nomination packet.

Rex Reed does not fulfill the above mentioned criteria of professional development activity in 2012/13 nor was he nominated by the DRB. I was on the Jan. 2013 DRB when Rex Reed had his first 6 month evaluation. Lizzy Gates was the chair. There was no discussion or nomination of Rex Reed for this award. I also checked with Lizzy today. She didn't nominate Rex nor does she know of any discussion of nominating Rex.

Rex is currently in his second year of employment. He achieved much in his prior professional career but that was before becoming a faculty member at UWP. This is

LAE professional development award

an LAE award. Not an award for prior professional achievements or an alumni award. What has Rex done in the last year that outshines me (besides being a male which seems to count a lot in our department and obviously in LAE)?

This action just validates my desire to have this matter resolved on a higher level.

Sabina

Mike,

I am a member of the DRB and was so in Jan. 2013. I want to have this nomination of Rex Reed repealed. We, as the DRB, did not make the nomination. Therefore, it does not reflect the consensus of the CJ DRB.

I hereby request a CJ department meeting and a DRB meeting with Lizzy Gates present as our former DRB chair. A probationary faculty member who has been employed for just 6 months does not qualify for this prestigious award! I want an investigation to determine whether documents were falsified or if someone without authorization spoke in the name of the CJ DRB and nominated Rex Reed.

Thanks,

Sabina
