Liz,

I don't even know if I can come to school tomorrow. I have been popping migraine pills for a huge tension headache. I may call in sick and talk to an attorney instead. I need to see how I can get some justice in this matter. Tom has defamed my character. He has lied. I'm certain the letter was written by Aric not Tom. It has Aric's wording in it. Tom has a different style of writing and it's not as good. My character has been put in question with AT&T when my statements were called incorrect and even misleading. This has to be corrected. My name must be cleared of this.

I asked you for help before as Tom has been bullying, intimidating, and bad-mouthing me in the last month following the student complaint. I have stood alone. Fortunately I have Roger's support.

I have worked so hard for this program. Just this afternoon at 5:30 pm I had a successful phone conference with a Hollywood studio (that produces "24 Hrs") and a 25 yr FBI veteran Steve Moore http://www.youtube.com/watch?v=ILqg_2mXzZQ . They want me to be their academic consultant on a show that deals with Cold Cases. They want to come and film me teach and analyze crime scenes with students. I should be ecstatic. Instead I am very upset and stressed over the great injustice I have been dealing with. Tom holds a grudge and is allowed to act on it. He has to retire and Aric has to be put in place. I can't stand dealing with their aggressive behavior anymore.

FYI this is a link to the proposal that was officially approved and submitted the semester BEFORE you started as dean. Tom knows that but he's been allowed to bully me in the last months.

Travis Tranel and AT&T were contacted before you were our Dean. I used the material that was approved by the school and by Tom.
