Hi Sabina, I hope you feel better soon. If you can not physically visit
with your summer interns due to illness, Skype or phone calls with
internship-agency supervisors will be helpful to keep those internship
partnerships strong.

(I copied Mike to keep him in the loop.)

Thanks for the update,
Cheryl

Subject: Internship visits

Cheryl,

I know you were trying to help me but your revelation that Dalecki and
Throop discussed my termination really stressed me. I apologized for my
harsh tone in the email but not for the true content. I think,
considering the injustice I have been suffering since the student sexual
harassment complaint, I deserve at least the same benefit of the doubt
as do Caywood, Johnson, Reed, and Cecil.

Although the HR director told me not to fear termination I do not feel
safe. Whistle-blowers are always bullied.

I am emailing you as you represent Dalecki in his absence. I saw a
doctor yesterday and another today. They are treating me for severe
tension headaches and migraines. I will get letters from both doctors
indicating that I shouldn't be driving much. This will of course impact
my internship visits. Unless my husband can drive me I won't be able to
visit with my interns in Oshkosh, Milwaukee and other cities. I don't
want anyone to misinterpret this as insubordination so I will email you
the letter(s) as soon as I get them.

Please let me know if there is an issue with me doing the

internship/department visits by Skype or phone instead. I have been in constant contact with my interns and provided feedback to all of their report packages.

Thanks,

Sabina
