RE: Sabina Burton

DOB: 06/29/1965

To Whom It May Concern:

I am writing on behalf of my patient Sabina Burton. I have been seeing her for anxiety due to stress related to her job. As a result of a recent escalation in her job stress she has been having increased anxiety and associated severe headaches which make it very difficult for her to drive. This is a problem for her because she is managing 8 students who are doing their internships this summer and she is supposed to be driving to the 8 different sites to meet with the students and their preceptors. She normally enjoys this part of her job but because the headaches are so severe she feels very uncomfortable having to drive to these sites which can be a distance away as one of her sites is in Oshkosh. She thinks in the past these meetings have been done via Skype and she would like to be able to do her meetings this summer via Skype. I am writing to request that she be allowed this accomodation when she is having severe headaches that may making driving to these sites difficult for her. Thank you for your consideration in this manner. Please feel free to contact me if you have any questions.

Sincerely,

Sue Amundsen PA-C
