Tom,

I again request to chair the new search & screen. Aric is ok with it.

I want to build my DRB portfolio and chairing another search & screen will help me do so. I did a good job last time and I would give this new assignment due diligence.

Sabina

Sabina,

I have no personal stake in this search process. By all means, if you wish to approach Tom about seeing whether he would desire you to chair it, feel free.

Aric

Aric,

Tom told me that he assigned you the chair position for the Lomax replacement search & screen.

In September Tom asked me to surrender my chair position for one of the current searches we have going to Lorne, who is now handling two searches, so he could improve his DRB folder. I was happy to comply.

This is nothing against you, just feel it's my turn so I am asking to chair this position and wanted to give you a heads up. I have only chaired once so far.

Take care,

Sabina
