That should be explained to Lorne... And to Tom. I can tell you this much, if I was put in your position & found out I was a pawn in a game, there'd be hell to pay.

Agree. I wish he'd explained things to us first. My understanding is that the school has to be properly briefed when conducting such experiments ...

Not cool of him to put faculty in the midst of his games without letting them know...

Sabina:

Lorne explained the note as part of a breach experiment to get peoples eractions. He did this in both sections of reseach.

I suggested he email everyone in both clsses to explain what he did and why he did it.

Tom
