Dear Ed and David:

On behalf of the University of Wisconsin-Platteville, I want to express our team's gratitude for visiting our campus. We appreciate the frank discussion on our expanding CJ program under Department Chair Caywood's direction and the insights for faculty into opportunities for partnership. As discussed, we have prepared an outline of the grant programs (see attached) related to these efforts and would appreciate your direction and possible support. At your earliest convenience, please contact either Bob Roberts or myself on the grant opportunities of interest. We also welcome other opportunities for site visits and future partnership discussions from you and your colleagues.

Kindest Regards,

Michael P. Gay, CEcD
