I have not heard back from anyone regarding the latest harassment issue. During her call to Roger Lana Caywood threatened to come over to our house to yell if Roger hung up on her. That is why he stayed on the phone for almost two hours listening to her ranting and profanity.

I need assurance by 9 pm that this will not happen again or I will report it to the sheriff's department and may report it to the media.

This has gotten out of hand! We have two kids. Under no circumstances will I expose them to this kind of abuse.
