In my view, the choice I made was in the best interest of Valerie, as well as the mission of the department and the university.

Thanks!

Mike

Neither you nor Cheryl need that.

I understand your concerns, Sabina, and I also realize that this is your understanding of previous events. However, I think it best this year that the mentoring assignments stay as I indicated.

Your promotion will not live or die based on mentoring Valerie--or anyone for that matter--and given the number of new hires we expect there will be other opportunities for mentoring in the future.

Thank you!

There has been a change in the mentoring assignments, Sabina. Cheryl
will mentor Amy, I will mentor Valerie.

Thank you for your interest.
