Re: Sabina Burton

I would like to request an inequity/inversion adjustment for Dr. Sabina Burton of the Department of Criminal Justice. She is a tenured associate professor but is making less than Dr. Pat Solar, a first-year tenure-track professor. I would like to cure this inversion immediately and make Dr. Burton's raise retroactive to the beginning of the contract period last August 2013. Please raise Dr. Burton's salary to \$56,000 (a raise amount of \$3732).

I have enough ongoing salary savings in the college salary budget to allow this raise. Please let me know if you have any questions or concerns.
