Re: Recommendation for Retention of Sabina Burton

In agreement with the Criminal Justice DRB, I highly recommend we retain Sabina Burton in the Criminal Justice Department at UW-Platteville.

Sabina is an integral part of our department. With only three full semesters on campus she's made a positive impact on our department. She brings a wealth of international experience to our campus and our program. She has developed two current topic courses; one is on behavioral profiling, and the other is on terrorism in general with a focus on domestic terrorism. Both have been well received by our students.

Sabina chairs a search and screen committee for our research and theory position. She continues to receive superior marks from peer and student evaluations. She continues to serve on many departmental, college and university committees.

Sabina is well liked by our students and she is respected by her peers. She is proving herself to be a solid performer within our department and worthy of retention.
