The admin did it before. To Danelle Bemis who was fired a few month later.

See below.

Subject: Fwd: Compromised payroll account

Hi Sabina,

I would like to report a cyber crime, and I would prefer that an outside agency investigate the matter. Could you recommend the best person to contact? I'm not sure how it came about yesterday, but someone got into my HR account (hacked my password I guess) and entered about two months of unpaid leave so that I would not receive a paycheck in June. Tom reported it to IT, but I feel that this is the last straw and I would like to report this to a higher agency. It must be someone that works here on campus, because they know how to enter leave.

Danelle

I just went up to HR to check on this and OIT will be made aware of the issue. Hopefully OIT will be able to determine what happened.

Tom

Subject: Compromised payroll account

Hi there,

Payroll just informed me that my online user account was compromised yesterday. Someone entered two months of leave for me beginning on February 13th. My social security, taxes, benefit information, etc. is all compromised. I find it interesting that someone entered leave for me, indicating that they are employed and use the system themselves.

Danelle
